Guide for Authors – AJESS

The Algerian Journal of Electrical Systems and Sustainability (AJESS) welcomes high-quality, original contributions in the field of electrical systems, renewable energy, sustainability, intelligent control, energy storage, smart grids, electric mobility, and related domains.

1. Before You Begin

- Scope: Ensure your manuscript fits within the journal's scope—electrical systems, renewable/sustainable energy, energy management, smart grids, and related applications.
- Language: All submissions must be written in clear, professional English.

2. Types of Paper

- Original Research Articles
- Review Papers
- Short Communications
- Case Studies
- Technical Reports

3. Submission Checklist

- Manuscript prepared using the AJESS template
- Cover letter
- Highlights (3–5 bullet points)
- Graphical abstract (optional)
- Author Contributions (CRediT taxonomy)
- Conflict of Interest Statement
- Funding Declaration
- Data Availability Statement

4. Ethics and Policies

- Ethics in Publishing: Follow COPE guidelines.
- Declaration of Competing Interest: All authors must disclose any potential conflicts.
- Use of AI in Scientific Writing: Any use of generative AI must be transparently disclosed.
- Changes to Authorship: Requests must be justified and approved by all authors.

5. Copyright and Open Access

- AJESS is an open-access journal. Authors retain copyright under a Creative Commons license (CC BY-NC or similar).
- Submission implies permission to publish online and in print.

6. Preparing the Manuscript

- Use either Microsoft Word (AJESS Template) or LaTeX (Template available upon request).
- Structure: Title page, Abstract, Keywords, Highlights, Introduction, Methods, Results, Discussion, Conclusions, Acknowledgments, References, Appendices.

7. Figures and Tables

- High-resolution images (min. 300 DPI).
- Figures must be numbered and include clear captions.
- Tables must be editable (not images) and include titles.

8. References

- Use IEEE or APA referencing style consistently.
- Use reference management software like Mendeley, EndNote, or Zotero.
- Include DOIs where applicable.

9. Review and Submission

- Peer Review: Double-blind review by at least two experts.
- Suggesting Reviewers: Authors may suggest 2–3 qualified reviewers.
- Submission Portal: [To be provided]
- Revisions: Must include a detailed response to reviewer comments.

10. After Acceptance

- Proofreading: Authors will receive galley proofs for final corrections.
- Offprints and Copies: Available upon request.
- Indexing and Archiving: Accepted papers will be archived and indexed in relevant databases.

11. Contact
