Journal of Building Materials and Structures

VOL. 4 (2017)

An open access peer-reviewed journal
ISSN 2353-0057

Table of contents

About the journal.....	i
Editorial Board Members.....	i
Impact of electric arc furnace slag on geopolymer composites exposed to sulphate solution..... <i>Hisham Mustafa Mohamed Khater</i>	1-15
Rehabilitation of existing building structure in expansive soils: A case study in Laghouat, Algeria..... <i>Aissa Ouai</i>	16-21
Biocomposite Bridge..... <i>David Malschaert</i>	22-30

About the journal

Journal of Building Materials and Structures (JBMS) is a peer-reviewed online journal, currently published semi-annually. **JBMS** is a free access journal, and offers a meeting targeted for specialists around the world to publish and discuss all topics related to the building materials and structures.

JBMS topics include, but are not limited to, research on:

- Elaboration and characterization of building materials.
- Experimental techniques.
- Microstructural properties and structural engineering.

ISSN 2353-0057

Editor-in-Chief

Bouziani Tayeb, Structures Rehabilitation and Materials Laboratory (SREML), University Amar Telidji-Laghout, Algeria.

Associate Editors

Li Alex, Laboratoire de génie civil, UFR Sciences, GRESPI - Université Champagne-Ardenne de Reims, France.

Shim Hyun-Bo, Korea Concrete Institute (KCI) Research Center , Kangnam-gu, 135-703 Seoul, South Korea.

Safi Brahim, Research Unit Materials, Processes and Environment, University M'hamed Bougara-Boumerdes, Algeria.

Queneudec T'kint Michele, Unité de Recherche EPROAD - Université de Picardie Jules Verne, Amiens, France.

Ghernouti Youcef, Research Unit Materials, Processes and Environment, University M'hamed Bougara-Boumerdes, Algeria.

Khatib Jamal, School of Architecture and Built Environment, University of Wolverhampton, United Kingdom.

Goual Mohamed Sayeh, Civil Engineering Laboratory, University Amar Telidji-Laghout, Algeria

Kadri El-Hadj, Laboratoire de Mécanique et Matériaux du Génie Civil (L2MGC), Université de Cergy-Pontoise, France.

Khandaker Anwar Hossain, Department of Civil Engineering, Ryerson University, Toronto, Ontario, Canada

Arif Kamal Mohammad, Dept. of Architecture, Aligarh Muslim University, Aligarh – 202002, India.

Secretary

Sahraoui Mohamed, Structures Rehabilitation and Materials Laboratory (SREML), University Amar Telidji-Laghout, Algeria.
